

Dear Mayor Godbold:

The Jacksonville Women's Network commends you on your policy of appointing women to key positions in city government and your commitment that women play an active role in our government.

The number of women appointed by the mayor has risen from only two in the past administration to over twelve in your administration.

We also commend you for appointing women to key boards; such as, the Downtown Development Authority, the Transportation Authority, the Electric Authority and the Planning Commission.

Your administration has shown a sensitivity to the needs of women in Jacksonville. We have seen the Mayor's Commission on the Status of Women given greater latitude and this has a significant impact on the community.

Sincerely,
